Chip, Kristine, Lori,

Per your request, the LWG is providing to EPA the Word version of the text and appendices of the draft final Baseline Ecological Risk Assessment (BERA). Windward will send a CD with the files to you today by FedEx. We are providing this draft document to EPA in order to facilitate your comment process on the document. We understand that you will be making your changes in "redline" and providing those changes to the LWG. We further understand that this "redline" process will replace the traditional EPA comment process on a line reference basis, and that the LWG will be responsible for finalizing the BERA, using the regular LWG/EPA process for resolving comments.

Please let us know if you have any questions.

Thank you,  
Jen Woronets ☺
